

Are you enthusiastic about the work and programs of Family Connections?

As a result of a recent update to our strategic plan, the board of Family Connections identified a need to broaden and diversify its board of directors. We would love to enhance our board with current and/or former Family Connections' program participants, as well as board members with interest or skills in early childhood development, literacy, finance, marketing/communications.

Family Connections is also always committed to having a board of directors that represents the community we serve – culturally, geographically, and ethnically.

Are you (or someone you know) interested in bringing time, talent and treasure to an organization that **supports families?**

We know people's lives are so *busy* these days but participation does not require a huge time or financial commitment – approximately six meetings a year plus two annual events a year. Most important is having the input and engagement of energetic and committed community leaders who believe that education is crucial to a lifetime of success!

Then ask me about becoming a Board Member!

Join our team!
